

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## Neutralization reagent

|               |                    |         |     |
|---------------|--------------------|---------|-----|
| Creation date | 18th April 2023    | Version | 2.0 |
| Revision date | 02nd February 2026 |         |     |

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

|                     |                                |
|---------------------|--------------------------------|
| Substance / mixture | Neutralization reagent mixture |
| Number              | 3                              |
| UFI                 | W800-F0V2-0001-T6R0            |

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

##### Mixture's intended use

Laboratory reagent.

##### Mixture uses advised against

The product should not be used in ways other than those referred in Section 1.

#### 1.3. Details of the supplier of the safety data sheet

##### Exclusive representative

Name or trade name

Centrum Medycyny Klinicznej  
DiMedical Sp. z o.o.

Address

ul. Żeromskiego 52, Łódź, 90-626  
Poland

Identification number (CRN)

382561679

VAT number

PL7272835461

Phone

+48502660480

Email

kontakt@dimedical.pl

Web address

www.dimedical.pl

##### Supplier

Name or trade name

Centrum Medycyny Klinicznej  
DiMedical Sp. z o.o.

Address

ul. Żeromskiego 52, Łódź, 90-626  
Poland

Identification number (CRN)

382561679

VAT number

PL7272835461

Phone

+48502660480

Email

kontakt@dimedical.pl

Web address

www.dimedical.pl

##### Competent person responsible for the safety data sheet

Name

Centrum Medycyny Klinicznej  
DiMedical Sp. z o.o.

Email

kontakt@dimedical.pl

#### 1.4. Emergency telephone number

European emergency number: 112

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

##### Classification of the mixture in accordance with Regulation (EC) No 1272/2008

The mixture is classified as dangerous.

Skin Irrit. 2, H315

Eye Irrit. 2, H319

STOT SE 3, H335

##### Most serious adverse effects on human health and the environment

Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation.

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## Neutralization reagent

Creation date 18th April 2023 Version 2.0  
Revision date 02nd February 2026

### 2.2. Label elements

#### Hazard pictogram

#### Signal word

Warning

#### Hazardous substances

hydrochloric acid ... %

#### Hazard statements

H315 Causes skin irritation.  
H319 Causes serious eye irritation.  
H335 May cause respiratory irritation.

#### Precautionary statements

P261 Avoid breathing mist/vapours/spray.  
P264 Wash hands and exposed parts of the body thoroughly after handling.  
P280 Wear eye protection/protective gloves/protective clothing.  
P312 Call a POISON CENTRE if you feel unwell.  
P321 Specific treatment (see supplemental first aid instructions on this label).  
P337+P313 If eye irritation persists: Get medical advice/attention.

### 2.3. Other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended. Does not contain any PMT or vPvM components.

## SECTION 3: Composition/information on ingredients

### 3.2. Mixtures

**Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment**

| Identification numbers               | Substance name          | Content in % weight | Classification according to Regulation (EC) No 1272/2008                                                                                                                                                                                 | Note |
|--------------------------------------|-------------------------|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Index: 017-002-01-X<br>EC: 231-595-7 | hydrochloric acid ... % | 18.5                | Skin Corr. 1B, H314<br>STOT SE 3, H335<br>Specific concentration limit:<br>Skin Corr. 1B, H314: $C \geq 25\%$<br>STOT SE 3, H335: $C \geq 10\%$<br>Skin Irrit. 2, H315: $10\% \leq C < 25\%$<br>Eye Irrit. 2, H319: $10\% \leq C < 25\%$ | 1, 2 |

#### Notes

- Note B: Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations. In Part 3 entries with Note B have a general designation of the following type: 'nitric acid ... %'. In this case the supplier must state the percentage concentration of the solution on the label. Unless otherwise stated, it is assumed that the percentage concentration is calculated on a weight/weight basis.*
- A substance for which exposure limits are set.*

Full text of all classifications and hazard statements is given in the section 16.

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## Neutralization reagent

|               |                    |         |     |
|---------------|--------------------|---------|-----|
| Creation date | 18th April 2023    | Version | 2.0 |
| Revision date | 02nd February 2026 |         |     |

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet. If unconscious, put the person in the stabilized (recovery) position on his side with his head slightly bent backwards and make sure that airways are free; never induce vomiting. If the person vomits by himself, make sure that the vomit is not inhaled. In life threatening conditions first of all provide resuscitation of the affected person and ensure medical assistance. Respiratory arrest - provide artificial respiration immediately. Cardiac arrest - provide indirect cardiac massage immediately.

##### If inhaled

Terminate the exposure immediately; move the affected person to fresh air. Protect the person against growing cold. Provide medical treatment if irritation, dyspnoea or other symptoms persist.

##### If on skin

Remove contaminated clothes. Wash the affected area with plenty of water, lukewarm if possible. Soap, soap solution or shampoo should be used if there is no skin injury. Provide medical treatment if skin irritation persists.

##### If in eyes

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. Rinsing should continue at least for 10 minutes. Provide medical treatment, specialized if possible.

##### If swallowed

Rinse out the mouth with water and provide 0.2-0.5 L of water. Provide medical treatment if the person has any health problems.

#### 4.2. Most important symptoms and effects, both acute and delayed

##### If inhaled

May cause respiratory irritation.

##### If on skin

Causes skin irritation.

##### If in eyes

Causes serious eye irritation.

##### If swallowed

Irritation, nausea.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

##### Suitable extinguishing media

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

##### Unsuitable extinguishing media

Water - full jet.

#### 5.2. Special hazards arising from the substance or mixture

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

#### 5.3. Advice for firefighters

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Do not inhale mist/vapours/spray. Prevent contact with skin and eyes.

#### 6.2. Environmental precautions

Prevent contamination of the soil and entering surface or ground water.

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## Neutralization reagent

Creation date 18th April 2023 Version 2.0  
Revision date 02nd February 2026

### 6.3. Methods and material for containment and cleaning up

Spilled product should be covered with suitable (non-flammable) absorbing material (sand, diatomaceous earth, earth and other suitable absorption materials); to be contained in well closed containers and removed as per the Section 13. In the event of leakage of the substantial amount of the product, inform fire brigade and other competent bodies. After removal of the product, wash the contaminated site with plenty of water. Do not use solvents.

### 6.4. Reference to other sections

See the Section 7, 8 and 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Prevent formation of gases and vapours in concentrations exceeding the occupational exposure limits. Do not inhale mist/vapours/spray. Prevent contact with skin and eyes. Wash hands and exposed parts of the body thoroughly after handling. Use only outdoors or in a well-ventilated area. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection.

### 7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose. Store locked up. Keep container tightly closed.

### 7.3. Specific end use(s)

not available

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

The mixture contains substances for which occupational exposure limits are set.

#### European Union

#### Commission Directive 2000/39/EC

| Substance name (component) | Type           | Value                |
|----------------------------|----------------|----------------------|
| Hydrogen chlorid           | OEL 8 hours    | 8 mg/m <sup>3</sup>  |
|                            | OEL 8 hours    | 5 ppm                |
|                            | OEL 15 minutes | 15 mg/m <sup>3</sup> |
|                            | OEL 15 minutes | 10 ppm               |

### 8.2. Exposure controls

Take off contaminated clothing and wash before reuse. Follow the usual measures intended for health protection at work and especially for good ventilation. This can be achieved only by local suction or efficient general ventilation. If exposure limits cannot be observed in this mode, suitable protection of airways must be used. Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

#### Eye/face protection

Protective goggles.

#### Skin protection

Hand protection: Protective gloves resistant to the product. When choosing appropriate thickness, material and permeability of the gloves, observe recommendations of their particular manufacturer. Observe other recommendations of the manufacturer. Other protection: protective workwear. Contaminated skin should be washed thoroughly.

| Glove material | Thickness | Breakthrough time | Class |
|----------------|-----------|-------------------|-------|
| Neoprene (CR)  | ≥ 0.7 mm  | >30 min           | 2     |

#### Respiratory protection

Halfmask with a filter against organic vapours in the poorly ventilated environment.

#### Thermal hazard

Not available.

#### Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2.

| Colour                                                   | data not available |
| Odour                                                    | acid               |
| Melting point/freezing point                             | data not available |
| Boiling point or initial boiling point and boiling range | data not available |
| Flammability                                             | data not available |
| Lower and upper explosion limit                          | data not available |
| Flash point                                              | data not available |
| Auto-ignition temperature                                | data not available |
| Decomposition temperature                                | data not available |
| pH                                                       | 0-1 (undiluted)    |
| Kinematic viscosity                                      | data not available |
| Solubility in water                                      | data not available |
| Partition coefficient n-octanol/water (log value)        | data not available |
| Vapour pressure                                          | data not available |
| Density and/or relative density                          | data not available |
| Relative vapour density                                  | data not available |
| Particle characteristics                                 | data not available |

#### 9.2. Other information

not available

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

not available

#### 10.2. Chemical stability

The product is stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

Unknown.

#### 10.4. Conditions to avoid

The product is stable and no degradation occurs under normal use. Protect against flames, sparks, overheating and against frost.

#### 10.5. Incompatible materials

Protect against strong acids, bases and oxidizing agents.

#### 10.6. Hazardous decomposition products

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

### SECTION 11: Toxicological information

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Hazardous substances in concentrations exceeding exposure limits may cause acute inhalation poisoning, depending on the concentration and duration of exposure. No toxicological data is available for the mixture.

##### Acute toxicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

##### Skin corrosion/irritation

Causes skin irritation. Data for the components of the mixture are not available.

##### Serious eye damage/irritation

Causes serious eye irritation. Data for the components of the mixture are not available.

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## Neutralization reagent

|               |                    |         |     |
|---------------|--------------------|---------|-----|
| Creation date | 18th April 2023    | Version | 2.0 |
| Revision date | 02nd February 2026 |         |     |

### Respiratory or skin sensitisation

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Germ cell mutagenicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Carcinogenicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Reproductive toxicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Toxicity for specific target organ - single exposure

May cause respiratory irritation. Data for the components of the mixture are not available.

### Toxicity for specific target organ - repeated exposure

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Aspiration hazard

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

## 11.2. Information on other hazards

### Endocrine disrupting properties

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any components that may cause endocrine disruption for humans.

### Other information

not available

## SECTION 12: Ecological information

### 12.1. Toxicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### 12.2. Persistence and degradability

No data are available for either the mixture or the components.

### 12.3. Bioaccumulative potential

No data are available for either the mixture or the components.

### 12.4. Mobility in soil

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any PMT or vPvM components.

### 12.5. Results of PBT and vPvB assessment

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any PBT or vPvB components.

### 12.6. Endocrine disrupting properties

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any components that may cause endocrine disruption in the environment.

### 12.7. Other adverse effects

Not available.

## SECTION 13: Disposal considerations

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## Neutralization reagent

|               |                    |         |     |

| Revision date | 02nd February 2026 |         |     |

### 13.1. Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Perfectly cleaned containers can be submitted for recycling.

### Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

## SECTION 14: Transport information

### 14.1. UN number or ID number

UN 1789

### 14.2. UN proper shipping name

HYDROCHLORIC ACID

### 14.3. Transport hazard class(es)

8 Corrosive substances

### 14.4. Packing group

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## Neutralization reagent

|               |                    |         |     |
|---------------|--------------------|---------|-----|
| Creation date | 18th April 2023    | Version | 2.0 |
| Revision date | 02nd February 2026 |         |     |

vPvM

Very persistent and very mobile

### Training guidelines

Inform the personnel about the recommended ways of use, mandatory protective equipment, first aid and prohibited ways of handling the product.

### Recommended restrictions of use

not available

### Information about data sources used to compile the Safety Data Sheet

REGULATION (EC) No. 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL (REACH) as amended.  
REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Data from the manufacturer of the substance / mixture, if available - information from registration dossiers.

### More information

Classification procedure - calculation method.

### Statement

The safety data sheet provides information aimed at ensuring safety and health protection at work and environmental protection. The provided information corresponds to the current status of knowledge and experience and complies with valid legal regulations. The information should not be understood as guaranteeing the suitability and usability of the product for a particular application.
